Learn Local

Lyrebird Community Centre is proud to be a Learn Local organisation. Throughout Victoria there are over 320 Learn Local organisations who deliver the education and training that Victorians of all ages need to get a job and develop the skills they require for even greater personal achievement in learning and in the workplace.

As a Learn Local organisation, we deliver both accredited and pre-accredited programs, giving learners fundamental skills and confidence for employment or further training. Each year over 110,000 Victorians choose to learn through a Learn Local organisation. They often choose Learn Local education and training because it is close to home and offers a friendly environment. All learners are diverse and include adults with no prior formal education, adults learning for interest or their own personal development, young and mature aged learners, existing workers and employees looking to further their studies to get, change or achieve more in their jobs, or Victorians from culturally and linguistically diverse backgrounds.
